EXPERIENCE

Chariot Solutions, PA — Software Consultant

MARCH 2016 - PRESENT

@ Client: IQVIA - I worked as part of a team to build an application that allows data scientists to design and execute Apache Spark jobs through a web interface.

Languages - Scala, JavaScript, HTML / CSS, SQL

Tech - Play Framework, Oracle DB, Slick, Akka, Apache Spark

Clutch, PA — Intern → Part Time Software Developer

2013 - 2015

During my ~1250 hours at Clutch I contributed to a large variety of different projects, doing both **mobile development** and **web development**.

I started as an intern, but by the time I left three years later I was more of a part time developer and a valuable part of the team.

Languages - Scala, JavaScript, HTML / CSS, SQL

Tech - Titanium Studio, Play Framework

The Aardvark Brigade, NJ — Intern, Web Development

Summer 2012

At The Aardvark Brigade, I fixed bugs on several live websites and worked on a JavaScript music visualizer during my downtime in order to learn more about the language. That music visualizer would later be featured on Google's Chrome Experiments showcase.

Languages - JavaScript, HTML / CSS

EDUCATION

The College of New Jersey - Ewing, NJ **Double Major in Computer Science and Interactive Multimedia**

2011 - 2015

SKILLS

JavaScript, HTML / CSS
Scala, Java, C#, Python, PHP

Git, Linux

Creative tools (Photoshop, Illustrator, Premiere, etc.)

ACCOMPLISHMENTS

My JavaScript music visualizer was featured in Google's **Chrome Experiments** showcase.

Winner of various **Hackathon** awards during college.

4-year member of my high school's **FIRST robotics** team.
